BRIDGEWATER HIGH SCHOOL

CHILD PROTECTION POLICY

Written by:	T Hatton	Date	September 2019	Policy ref	A22

The school recognises its obligation under Section 175 of the Education Act 2002 to promote and safeguard the welfare of all pupils and sees its Child Protection Policy as fulfilling a key part of this duty. The policy is compliant with the guidance issued by the Department for Education in Working Together to Safeguard Children 2018 and Keeping Children Safe in Education September 2019.

Introduction

Bridgewater High School is committed to ensuring that all necessary steps are taken to keep children and young people safe from harm. We are determined that all of our children and young people will be educated in an enjoyable and safe environment where the holistic needs of the child are our key focus. We recognise that it is the responsibility of all staff and adults employed by the school to fulfil their obligations in safeguarding young people and that where there are suspicions and disclosures of harm that the necessary steps are taken at all levels in order to support the child or young person.

Our policy applies to all staff and volunteers working in the school; staff, governors, teaching assistants, mid-day supervisors, secretaries, technicians, exam invigilators and the catering staff. The policy also applies to pupils at the school whilst participating in extra-curricular activities and school organised trips.

The Aim of the Policy

The aim of our policy is that:

- Pupils are able to recognise when they are at risk and/or when they may need help.
- Pupils know who to talk to get help and feel secure that they will be able to receive support.
- All staff are aware of the Designated Senior Leads and their role.
- All staff are appropriately trained to be able to identify children who may be at risk of or experiencing harm or any type of abuse in the home.
- All staff are aware of all aspects of Safeguarding including CSE, FGM, Forced marriage, teenage peer to peer abuse, upskirting and those at risk of radicalisation and can identify the signs of these types of abuse.
- All staff are aware of the importance of considering wider environmental factors in a child's life that may be a threat to their safety and/or welfare.
- All staff are aware of the procedures for referring their concerns either to the DSL or directly to external agencies.
- The mechanisms for reviewing monitoring and evaluating the practice behind the policy clearly show that these working practices are having a positive impact in supporting pupils.

Statements and Procedures
We follow the procedures set out in the Safeguarding Procedures Manual produced by the **Warrington Safeguarding Partnership** (WSP)

We have a full time Safeguarding Officer who works across the two sites. She is supported by the Designated Senior Leaders for Child Protection one based on each site. They are responsible for supporting other staff and/or for liaising directly with external agencies in order to support children and young people. The Safeguarding Officer and the DSL's will work closely with the Pastoral Team and Pastoral Support Staff who are the first point of contact for pupil welfare and the members of staff who know the children best.

Referral-principles

- All staff are made aware of the Safeguarding Officer and the Designated Senior Leads, the role that they undertake and how to contact and make referral through to them (Appendices 2 and 5).
- Staff are aware that anyone can make a referral direct to Social Care should they have concerns that a child is subject to abuse, or the child has made a disclosure. Staff should inform the DSL if they have had reason to contact Social Care or external agencies themselves.
- Staff are aware that if they are aware that FGM has happened it is their duty to inform the Police and inform the DSL. If they suspect then the DSL or Safeguarding Officer should be informed.
- All staff should undertake the responsibility themselves to establish the follow up to their concern being passed on.
- In all referrals the views of the child will be listened to and acted on however confidentiality cannot be assured.
- The member of staff will ensure that the child is aware that any information must be passed on.
- All staff must keep notes from the child at the point of any disclosure and to pass them to the Safeguarding Officer or one of the Designated Senior Leads.
- All staff are aware of the emphasis on Early Help and look to support all children at the earliest opportunity.
- The school will work proactively with external agencies to ensure that information is shared in the best interest of the child.
  This includes in particular, partnership work with Early Intervention Teams as allocated through the Early Help Process, Social Care and agencies working with children victim of and vulnerable to CSE.

(The process for Referral is given in Flowchart A/B and C and the relevant forms can be found in Appendix 2 & 3)

Communication of the Policy

- On issuing, through 'I AM COMPLIANT' all members of staff sign to confirm they have read this policy.
- All members of staff are issued with this policy and any updates at least annually.
- All new staff receive and sign that they have read the Child Protection Policy as part of their induction training (see below)
- Pupils are told who to go to should they have welfare a concern of their own in PSHE lessons and assemblies.
- Parents can read and access the Child Protection policy from the school's website.
- The school's commitment to safeguarding children is made clear in the school prospectus.
- Visitors, volunteers and staff working for a short time ie supply teachers at the school are issued with the Child Protection Awareness Document which summarises the main points of the policy. (Appendix 1)
- The safeguarding Committee of the Governing Body will review the policy annually.

Training and briefing

- The DSL's attend refresher training every two years.
- The DSL's attend multi-agency training throughout the year.
- All school staff receive up to date Safeguarding and Child Protection training annually. This includes topics of CSE, Radicalisation and FGM as well as the signs of Emotional, Physical, Sexual and Neglect abuse.
- Staff receive briefing on how to spot the signs of CSE and how to refer potential or known victims of CSE.
- Appropriate staff have received additional briefings on how to support children and families who are victim of CSE.
- Appropriate staff have received in-house training on the Prevent Duty as part of the CPD programme.
- Appropriate staff receive Channel training.
- DSL's receive training on FGM, Forced Marriage and Teenage Peer to Peer abuse.
- DSL's attend the Warrington DSL Network organised by Warrington Education Safeguarding Team.
- DSL's and the Safeguarding Officer receive the weekly Safeguarding update from Andrew Hall and the school subscribes to the Safeguarding Pro Service.
- The school has established links with the CSE officer of the Northern PPU for Cheshire Police.
- All staff are issued annually with the policy and are reminded of the routes of referral to the DSL through the September training day
- All staff new to school receive child protection training as part of their Induction.
- All staff are informed what Private Fostering is. Pastoral staff are alert to warning signs.
- All Governors Read and sign KCSIE chapter 1 and complete the HAYS on line Safeguarding Training.

Record Keeping and Information Sharing

- Where Child Protection referrals are made through to the MASH team the call must be logged on CPOMS and any associated documents will be stored in the secure document vault.
- Where the case becomes an open and on-going case, paper copies are securely retained and kept until the pupil is 26.
- The Data Protection Act 2018 and GDPR do not prevent, or limit, the sharing of information for the purposes of keeping children safe. This includes allowing professionals to share information without consent if there is a child protection concern.

Support for Vulnerable Pupils/Pupils with SEND

More vulnerable pupils may be less likely to ask for help or are more at risk of being the victim of abuse.

- Vulnerable Pupils will have the support of a key worker to best spot any signs to indicate possible abuse or identify broader safeguarding concerns. These pupils are listed in the school's Vulnerable Pupils Register.
- Vulnerable Pupils will be discussed fortnightly by the Safeguarding Team who will review the safety and progress of the child.
- The Safeguarding Team will ensure necessary support for young people who have disabilities which make it harder for them to access or benefit from the channels of support available.

Reviewing Child Protection at Bridgewater High School

- The Child Protection Policy is reviewed annually by the Safeguarding Committee and the Leadership representative.
- The Leadership representative will report annually to the Safeguarding Committee to update the schools Child protection work through Case Studies of vulnerable pupils.
- The Committee is informed of the numbers of pupils currently on Child Protection Plans, Common Assessment Frameworks or are designated as Children In Need.

Appendix 1

CHILD PROTECTION AWARENESS DOCUMENT

Bridgewater High School is committed to keeping the children and young people in our care safe from harm. ***All supply staff and those to work directly with pupils must read this document****. The document identifies your responsibilities and the school's responsibilities which will enable the safety of the child to be maintained as the school's key focus.*

Introduction:

Child Protection: Summary

- Teachers and others in regular contact with children and young people are in a position to get to know those individuals well, to develop trusting relationships, observe changes in behaviour and may be chosen by the young person to share confidence and concerns. Regrettably, there are occasions where child abuse is alleged or suspected. All such situations must be taken seriously.

- It is the policy of this school/establishment to safeguard the welfare of children and all others involved in the school's activities by protecting them from physical, sexual and emotional harm and being aware of the risk to them of CSE FGM and Radicalisation.

- It is the responsibility of each adult to ensure that his/her behaviour is appropriate at all times. A Code of Behaviour is included in this document to give positive guidance for all adults. It is essential that all adults follow the Code of Behaviour whether they work with children, young people or adults. Details of the steps to take if abuse is alleged or suspected are also included in this document.

- If there is a disclosure or suspicion of abuse then this must be reported immediately to the Designated Senior Person for child protection, whose responsibility it is to refer to social services/police (who are the investigative agencies). At all times the welfare of the young person is paramount. Swift reporting will enable the investigative agency to give advice and take appropriate action.

- These procedures exist, not to discourage adults from being involved in the life of this school/service, but to ensure, as far as possible, that people who may abuse children do not get the opportunity to do so.

Complying to School/Establishments Child Protection Policy

- All adults coming into contact with children and young people in this school/service must comply with the Child Protection Policy and Code of Behaviour.

- You are required to read this document. The form must be read, before you take any duties in this establishment.
- In all matters of child protection, the welfare and safety of the child is the paramount consideration**.**

Procedure

If you suspect that a child/young person is being abused:

- Immediately tell the Safeguarding Officer or **Designated Senior Leader for child protection:** Record the known facts and give them to the above person. Verbally, SIMS,EMAIL or via internal form see appendix 2.

Safeguarding Officer -Mrs Fiona Allen F.allen@bridgewaterhigh.com phone 01925 263919 217
DSL upper school: Mr Mark Malam m.malam@bridgewaterhigh.com 01925 263919 ext 337
DSL lower school: Mr D Morrison d.morrison@bridgewaterhigh.com 01925 263919 ext 207

If the Safeguarding Officer nor DSL's is not available safeguarding concerns should be raised with any member of the SLT.

If a child or young person tells you he/she is being abused:

1. Allow him/her to speak without interruption, accepting what is said;
2. Advise him/her that you will offer support, but that you **MUST** pass information on to the Designated Senior Leader for child protection
3. Immediately tell the Designated Senior Leader for child protection
4. Record the facts as you know them, including the account given to you by the young person and give a copy to the Designated Senior Leader for child protection

If you receive an allegation about any adult or about yourself:

1. Immediately tell the Head teacher (or Designated Senior Leader for child protection or Chair of Governors where the Headteacher/Principal is implicated)
2. Record the facts as you know them and give a copy to the Designated Senior Person for child protection or Chair of Governors where the Headteacher/Principal is implicated)

Code of Behaviour

At Bridgewater High School all staff or visiting adults are expected to:-

- Make note of the protocols for passing on any Safeguarding Concerns as explained earlier in the document.

- Treat everyone with respect.

- Provide an example you wish others to follow.

- In planning activities follow sensible Safeguarding practices: e.g. do not be alone with a pupil without informing others and/or try to ensure that you remain visible or in hearing distance of others.

- Respect a young person's right to personal privacy.

- Provide access for all pupils to feel comfortable enough to point out attitudes or behaviors they do not like, and provide a caring atmosphere.

- Ensure that pupils treat each other with respect.

7. Parental Agreement

Obtaining and sharing information with other agencies is an important part of the Assessment Process as it gives a fuller picture of the child's, young person's and family's circumstances and needs. In addition, other practitioners may be able to offer services and support. We may also share information to assess whether our services are working effectively and to improve our services for the future. This includes sharing with the government to conduct research on the impact and outcomes of services paid for by public money. Information can be stored for up to 5 years.

The MASH is made up of agencies who support children and young people and who have a duty to share information.

By consenting to this request, you are consenting to sharing information about your child/young person and family members in order to establish how best to meet your family's needs. All your information will be kept in line with the Data Protection Act 1998. Further information can be found at https://www.warrington.gov.uk/info/201114/publications_and_strategies/1892/privacy_policy
