

Dear Parents & Carers,

We are delighted to announce that Bridgewater High School has shown a commitment to protecting our pupils online and has worked with National Online Safety to deliver an interactive online workshop for all our parents & carers. Previous experience at Bridgewater (including last year's parental survey) has indicated that parents/carers very much value our work in this area.

It is as important as ever that schools, parents and carers work together to take an active role in teaching children about online dangers and how to act safely when using the internet, whilst also celebrating the fantastic opportunities the internet provides when used safely.

The course can be taken at your own convenience and covers:

- \* Information about online dangers and the newest platforms
- \* What online risks to look out for and how to protect your child

Please find below the URL you need to visit to register your account. You will need to complete your details and select the parent link from the dropdown:

<http://nationalonlinesafety.com/enrol/bridgewater-high-school>

Once you have registered, you will be able to access the "Online Safety for Parents and Carers" course, useful up-to-date webinars and National Online Safety's Resources (which includes over fifty online platform guides on the latest social media channels and games). This aims to help empower parents/carers with the knowledge to protect their children from the dangers of the internet.

If you have any questions, or trouble accessing the course please contact [support@nationalonlinesafety.com](mailto:support@nationalonlinesafety.com).

**Don't forget to keep visiting the Digital Well-being section of our website - <https://bridgewaterhigh.org/e-safety/> - for further updates including contributions from our new team of Esafety Ambassadors.**

Yours sincerely,

T.M.Eden  
Assistant Headteacher
